Along with the amazon built in Intents:

▼ Built-In Intents (4)

AMAZON.CancelIntent

AMAZON.HelpIntent

AMAZON.StopIntent

AMAZON.NavigateHomeIntent

If you want to make this Alexa Skill locally, you need to make your own custom alexa skill, import all the specific intents and paste the attached code into the “code” section of the alexa skills kit. To start this you will need to make an AWS account and then sign into the Alexa Skills kit. Then as instructed; input your intents, utterances, and code and you can test this right from your local machine.
